

Thursday

Inharmonious Relationship

“Being 42 years old, I have been married for 18 years and have three children. My husband is a non-Christian and we always argue and even fight. We had a big argument two months ago. He asked me to leave and get out. I was filled with anger and therefore left. He then criticized me through text messages which made me even angrier. He doesn't allow me to go home and I don't go back neither. I don't know how to keep a happy relationship with him. Unable to communicate, we argue every time we talk. Not knowing what to do, I have intended to lead a happy life with him. I know I have responsibility for this too. Please pray for me. I wish I have the wisdom of marriage.”

(Sister Lu)

✚ Pray that Sister Lu can calm down and be frank to her husband. They would forgive each other and her husband be touched and repent to accept God. Both of them can create a harmonious home.

Controversial Pre-made Dishes

The rapid pace of life and the continuation of the epidemic have made pre-made dishes based on “fast process” a new favorite on people's dining tables. The so-called pre-cooked dishes are made by pre-processing which converts ingredients into semi-finished or finished food products in advance, and then by adding various auxiliary materials as needed. Food additives may be used in the production process to meet the special requirements of long shelf life and convenient consumption. The China Consumers Association has recently announced that among the complaints received nationwide in the first half of 2022, problems such as unclear labels, shoddy processing with inferior ingredients and use of stale ingredients have been found in pre-made dishes. In addition, some restaurants have deceived consumers by serving them pre-made dishes when they dine in.

(“Legal Daily”, August 8, 2022)

✚ Please pray that the government will supervise their production process to guarantee the quality and safety of the products involved. Also pray that consumers will know how to eat in a healthy way and establish their good eating habits.

Friday

Problems of Study

“I have sincerely confessed and repented before God. I found that it would be much better if I didn't supervise my child's study. Once I could not help teaching him to do his homework, I would have inner feelings of annoyance, anger and scolding. My son hasn't any proper learning attitude and seriousness in his study. The teacher often sends my son's homework to the classmate group as a bad example. Although my two daughters' study isn't particularly good, my son's learning attitude is extremely different from that of his sisters. I often think about how to help my son adopt a proper learning attitude. I also communicate with my brothers and sisters in Christ concerning his situation, but there is still no obvious effect.”

(A troubled sister)

✚ Dear Lord, please let the sister's son have the motivation to be serious about his study, help him find interests in learning, and increase the sister's patience of accompanying her child to grow up.

Naxi People Led to The Lord

The Naxi people have a population of about 300,000 and their homeland is Lijiang, Yunnan. According to Xuanke, an expert on Naxi ancient music, his father Xuan Mingde was the first believer in Naxi. Since Xuan Mingde was led to the Lord by a Dutch missionary who came to Lijiang in 1905, he had become the missionary's interpreter. Xuan also became a pastor later. Today, there are four Christian churches and some gathering locations in the old town of Lijiang. The number of local believers is nearly 1,000. Moreover, the Naxi people use Dongba hieroglyph as their character. There are similar biblical records of creation and story of flooding in their ancient books. Although nearly 90 percent of the Naxi people have never heard of the gospel, they are convinced of an “unknown god”.

✚ According to some information, the Naxi people have already had bibles in their own language and have also produced their audio bibles. Some believers actively testify for the Lord in Lijiang and nearby areas. Please pray that the Lord will give calling to evangelical warriors within the territory so that more Naxi people will have the opportunity to hear the gospel in their own language and encounter the “unknown god”.

Saturday

Unique Baby

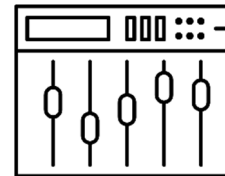

“My three-year-old granddaughter started to lose her temper at two and sometimes would hit people for no reasons. She felt regretful and apologized every time, over and over again. She has strong analytical ability and could tell right from wrong at the age of one. She cannot tolerate people getting emotional when talking to her and will say ‘You cannot do this. This is wrong.’ But we can tell that she cannot control herself. We have read Christian parenting books but still feel helpless. We did not get angry when she hit others but would seriously tell her not to hit others. We don't know whether we have neglected her inner sin?”

(Sister Yu)

✚ May God help Sister Ru and her family lead the child to You. Pray that the child is willing to be educated in God's words and let God lead her life.

Gospel Broadcasting

1 **Studio Upgrade:** Plans for studio upgrade has been made quite some time ago. The first set, Studio B, was completed and now in use. Please pray for the next phase on Studios C and A. With the pandemic, uncertainties in logistics may arise more frequently. May our gracious Lord see to it that delays are minimized, and the project will be accomplished on schedule.

2 **Anniversary of Liangyou:** This year marks the 73rd Anniversary of Radio Liangyou. We had arranged special broadcasts in three sessions in the morning, afternoon and evening on July 29. Although the live broadcasts took place in the morning and afternoon working hours, the audience volume was twice as much as usual. Moreover, the Thanksgiving Service was broadcast in the evening; and the audience volume was tripled. We are grateful to the listeners for their enthusiastic participation and sharing. Please give thanks to God for the ministry of our station!

PRAYER NEWSLETTER

SEP/OCT 2022

Dear Warriors in Christ,

In the morning of Radio Liangyou's 73rd Anniversary celebration day, it was rare to see all the colleagues using their mobile phones and leaving messages in Radio Liangyou's website chatroom. I also joined in the fun and saw congratulatory messages exploding immediately. Those who usually join less also enter. Reading these messages, I think that the broadcasting scope today is very different from that when it was founded. Audiences can communicate faster; and the world has become one family. But it is believed that what this prayer newsletter can convey is more touching than the short congratulatory messages.

Life experiences: Regardless of work, family or beginning of faith, the joys and sorrows that you read will let you enter people's spiritual world more, bringing about the helplessness amid sufferings and sins, and the understanding of how to turn to Almighty God for grace and mercy. Hope that our prayer life will grow day by day.

Spiritual growth: Reading about the struggles of our audience or various issues every month urges us to pray more that the country will not only get rid of poverty to become strong and rich, but also see the prosperity of the gospel. Please pray that more than one billion of unbelievers will undergo their conversion to Christianity as soon as possible.

Life challenges: I admit that always reading the news causes deep sadness privately. There are many disadvantaged and handicapped groups in China. This makes us remember to care for the poor in our intercession while spreading the gospel. Pray that we will see the power of God triumphing in our efforts of intercession and that God's mighty work can make people always victorious through His Words!

Sunday

Fed Up

"I became a Christian in 2002 and got married in 2003. My husband and his family accepted Christ when they were young. Having a daughter and a son, we aren't in a happy marriage. My husband is suffering from liver disease and manic depression. He always throws a temper at me and even hits me. Feeling broken and fed-up. I'm trapped in pain and so desperate to leave. I don't believe that I can live well in the darkness. He forbids me to go to church and has threw away the Bible and all other religious books. I secretly downloaded the Bible and joined online prayer meetings with brothers and sisters on my mobile phone. I have gone to another city with him. I'm sick and can only consult the doctor with his permission. He said he would get a divorce if I go back my hometown."

(A Sister)

⌘ May God comfort and heal Sister Yi's broken heart, allow her to rely on you to have victory over the darkness. May You heal her husband so that he can love his wife and children with Your love.

Offer Healthcare in Countryside

The medical and healthcare services need improvement in some remote and undeveloped areas. Some companies and organizations have taken forward charity projects in a two-pronged approach, namely strength augmentation and facility improvement. Standards for healthcare services in countryside are improved and the demand for primary healthcare services is dealt with. At present, one of the projects will use the funding raised for online training for 1,500 rural doctors, relieving the stress of 13 rural healthcare stations and, for donating equipment kits to the "mobile hospitals" in 16 areas. In addition, free medical consultation is provided for villagers with primary healthcare services in irregular intervals, including measuring blood pressure and blood sugar level, etc. Villagers are also briefed about health and nutrition.

("China News Net", August 8, 2022)

⌘ Pray for the poor remote rural areas that the government is willing to allocate resources to improve the local healthcare services and facilities. Pray for the village doctors that they serve with mission.

Monday

Hard Work in Sweat

"My parents are engaged in recycle business. They could bear it when they were young. As they are getting older, they have felt it is very difficult. They have also asked my grandfather to join this business. Currently my mother is really unable to work on this anymore. But she has never been employed. My father also doesn't want to change his career. He doesn't know what other job he could do. I hope that my parents can change their career smoothly, and that they will have the capital and confidence to run a suitable new business. Ask the Lord to take care of their health, and let them have peace and joy in the Lord. Please pray that my grandparents will be healthy and that they will rely on God in every aspect. May God bless my younger brother, and let him also have peace and joy. Pray that God will save my partner who still doesn't believe in Jesus. Also ask the Lord to help me return to my former religious life."

(Sister Wang)

⌘ Ask the merciful Lord to watch over Sister Wang's family so that they will have peace at work. Pray that she will rely on the Lord and draw close to Him more, and that she will resume her church life. Also pray that her partner will be called to open his heart and accept the Lord as the master of his life.

Fatal Attack in Kindergarten

Last month a man stabbed teachers and students in a kindergarten in Anfu county in the city of Ji'an, Jiangxi province, and then fled. Three people were killed and at least six injured. Police officers were sent to hunt him down. The suspect then was injured in a traffic accident and died after emergency treatment. The reason for the attack remains unknown. A number of serious wounding cases happened in China over the past few years. The attackers intended to take revenge against society by hurting young children who are unable to resist. Parents asked how to prevent the next tragedy from happening again.

("China News Net", August 8, 2022)

⌘ Children and teachers may suffer from psychological traumas due to the attack. May God comfort them and heal them. May God have mercy upon the soul of the wicked people and eliminate their bitterness and hate by giving them chances to know God.

Tuesday

Views on Marriage

"I don't think that finding a Christian partner will make marriage very smooth. I find that most people's marriages need to be adjusted. My family is more enlightened, democratic, tolerant and respectful. My husband's family is oppressive, autocratic and disrespectful. I have been adjusting with my mother-in-law for a long time. I have also changed a lot. Currently I don't go to work with my husband together. I also don't know how to communicate with him. I have nothing to speak except to ask him a question. This isn't my ideal marriage condition. Believing in the Communist Party, my husband's views on marriage incline to be of his parents' generation. After all, it is necessary to probe into values and views on marriage with a partner before getting married."

(Sister Qun)

⌘ Thank God for Sister Qun's enlightened and correct views on marriage. May the Lord strengthen her marriage. Please pray that she can grow up while adjusting with her in-laws and husband, and that they will establish a harmonious and loving family together.

Laundering Scam

In China, the credit report published by the Zhengxin Centre of the People's Bank of China can reflect the social credit situation of individuals and corporations. Records of a poor social credit score could affect the access to loans and credit cards, studies and job prospects, and travel plans in any forms. Consequently, the law-breakers have taken this chance to make money by charging very a high price and claiming that they can change the credit report. Some fraudsters have even organized Zhengxin restoration courses to develop an integrated gray industrial business of recruitment, training, joint agency, false evidence and sale of personal messages.

("China News Weekly", August 8, 2022)

⌘ Pray that the departments concerned will strengthen cooperation to fight against the false publicity and advertising on the internet to have the criminals prosecuted successfully. May God give people wisdom and prudence to tell truth from lies to avoid getting dupes in the world of information explosion.

Wednesday

From Hatred to Love

"Baptized last December, I have been living a new life. I have so enjoyed loving others and being loved in God. This spiritual rebirth gives me unprecedented freedom. I was born into an unfortunate family. Promiscuous, my father is a womanizer. He had dated multiple women when I was about ten. I fought with those women. I wrote letters to him, talked with him and cried in front of him, but all efforts were in vain. It hurt so much. My mother is the best and has been taking care of the whole family with four children. Having no fear, I hated him and vowed to break up with him. Thank God for changing me and transforming my deep hatred to love. I'm still learning to influence my father with the love of Christ."

(Sister "No Name")

⌘ The love of Christ gives sister strength to forgive her father. Pray that her father will be touched by God and knows that what he has done is hurting his family. Pray that he will repent and accept God's salvation and start a new life by being a responsible father.

Conservation Challenge

Having over 900 years of history, Wan'an Bridge in Fujian Province is the longest wooden arch bridge in China. It was burnt in a fire and collapsed last month leaving only the skeletons. The cause of the fire is still under investigation. In fact, many hundred-year-old bridges were destroyed in natural disasters or fires. The accident has alarmed people into an urgent review of the village heritage conservation. With the remarkable progress of the development of road construction and the changes in the mode of transportation, wooden arch bridges have become unnecessary in our daily life and been easily belittled. How to achieve sustainable development through effective conservation and restoration is the key issue of village heritage.

("The Beijing News", August 8, 2022)

⌘ Both natural and human destruction does not only threaten village heritage, but also affects our daily life. Pray that the government has the long-term vision for regional planning, formulation of disaster contingency measures and provision of redevelopment maintenance, etc.
