

Thursday

## God Opens My Heart

"I was born blind. My mother took me to church when I was a child. At that time, believing in the Lord faced many challenges. My church's pastor was facing severe persecution. Brothers and sisters in Christ took turns inviting him to stay at their homes for a few days. That was how the pastor had gone through those difficult times. I felt that Christians were very loving at that time. However, I did not have a deeper understanding of the Lord. It was not until last year that God opened my heart and I believed in the Lord Jesus. I truly regret that I have not accepted my Lord, who loves me, sooner! I also know that God's timing is correct. Currently I am immersed in God's love every day. Following Radio Liangyou, I am growing in truth spiritually."

(Brother Liu)

✚ Although Brother Liu cannot see, God understands the hardships he has encountered. May God guide him on his journey ahead so that he can live out his life with love and influence those people around.

## Suffering Heatstroke

An 89-year-old man in Changsha got heatstroke because he was reluctant to use an air conditioner. His body temperature soared to 42°C. Having symptoms such as confusion and heart failure, he was rushed to the hospital. Experts warn that heatstroke is fatal with a mortality rate exceeding 50%. Symptoms for the elderly are often less pronounced. Heatstroke may lead to failures of multiple organs. The three golden steps of first aid are: rapidly cooling the patient, providing him with light salted water and calling the rescue immediately. Using air conditioning appropriately, avoiding outdoor activities, and timely water replenishing are recommended to prevent heatstroke.

("Changsha Evening News", July 31, 2025)

✚ May relevant departments can actively educate citizens on how to avoid heatstroke and establish community-wide sheltering facilities for the summer. Pray that God will inspire more young people to proactively care for the health of the elderly nearby.

Friday

## God Gives Inheritance

"We had been childless and consulted numerous doctors. Later, we went to work in other cities and joined a cell group. The brothers and sisters in Christ were praying for us. An aged sister in Christ had even rented a better apartment and paid rents for us. I was truly grateful as I experienced the love for one another among the brothers and sisters in Christ. I became pregnant eight years after our marriage. My husband and I initially did not believe it. But after our child's birth, our child had brought us so much joy and gratitude. I had experienced the same tears and joy that Hannah had. At present we have three children and have educated them with the Bible. Our marital relationship is harmonious. God has not treated us unfairly."

(Sister Liu)

✚ Sister Liu has been allowed to experience the God's wonderful grace. May the Lord guide Sister Liu and her husband so that they will teach their child with the truth. Pray that they will bear beautiful witness.

## God Loves Khampas

A summer camp was held in a village populated by the Khampas. The camp has brought love and care to the local youth. Missionaries have been working hard among the Khampas for a long period, laying the foundation for the spread of faith. In 2002, a letter reported on a ministry which was being carried out with a low profile and was very fruitful: "Over 90 young people have heard the gospel for the first time. Pray for the young believers' endurance. In a city, several people have just accepted Christ; in a town, a young girl stands firm in her faith alone; in the same place, an elderly man has heard the gospel." Today, these evangelical efforts still continue.

✚ The Khampas have approximately a total population of 1.2 million which is primarily distributed in western China. The proportion of believers is probably less than one percent. Pray for the gospel messengers who quietly bear witness in this ethnic group. Also pray that the Lord will use their lives and testimonies to bring the Khampas back into the fold.

Saturday

## Healed By the Lord

"I have felt lost and hopeless for a period. I have even thought that life is meaningless. Furthermore, I have been reluctant to read the Bible and pray. My relationship with God is very distant. He never abandons me. His miraculous grace has blessed me, allowing me to resume a normal life of spiritual devotion. Gradually my emotion improves. And I realize that I have been too self-centered with too much unhealed pain deep in my heart. God has revealed this to me so that I can be completely healed. I thank God for saving me and changing me. My relationship with my husband is good at present. All the problems in my family have been corrected by the Lord. It is wonderful to have Christ as the master of our family."

(Sister Geng)

✚ The Lord has healed Sister Geng and brought her back from the darkness. She has deeply understood that she had gone through those difficult days so as to be completely liberated in the Lord. Pray that her life continues to be renewed in the Lord.

## Gospel Broadcasting

1 **76th Anniversary of Radio Liangyou:** In the morning of July 29, our staff gathered and reviewed the founding history of the ministry. We examined the efforts and perseverance of our predecessors who ultimately yielded a harvest and bore fruit for the Lord amid difficulties. In the evening, we had a 2.5-hour live program. Our "fruit", our audience, bored by Radio Liangyou participated together in the program, including hymn singing, bible reading, restating of the history and sharing of testimonies.

2 **Planning and Budgeting for 2026:** Ask the Lord to grant wisdom to various department heads so that they can comprehensively plan our organization's ministry for the next year in accordance with the actual needs and estimates of the ministry development. Also pray that the Lord will give us the confidence to rely on the His provision so that the gospel broadcasting ministry will lack nothing to develop continuously.

# PRAYER NEWSLETTER

Sep/Oct 2025

Dear Warriors in Christ,

Microsoft has recently announced a study, analyzing the usage data of Copilot in 2024 and identifying 40 occupations which are most likely to be affected by generative AI. Broadcasters and radio DJs have ranked tenth, with 41 % as the coefficient figure of being replaced.

In response, our program production staff have shared their thoughts: "A new era has arrived. TV stations are starting to use AI reporters." They have also encouraged each other, "Replacement by AI seems to be negative, but it can also represent a new opportunity. We must be open-minded, and get to know AI before it fully replaces us."

"AI can assist. But as its scope of capabilities is expanding, we must all stay vigilant or insist on maintaining something with human touch." "As AI advances, it will prosper while we decline. It will become increasingly professional. But AI can never match our human touch and our relationships with our audience." "We must strive to create programs that cannot be replaced by AI."

We also have a consensus, "Since a proportion (41%) can be replaced, what is the other proportion (59 %) which cannot be replaced?" "Since we have chosen to serve the Lord, we must serve as faithful stewards of God's grace in its various forms."

Therefore, we are striving to utilize AI in our ministry, especially in program production, to make AI our best assistant. As what a co-worker has said, we will use AI "for mission". Here is our mission: Christ to the World by Media

Sunday

## Holy Covenant

"I got to know a church sister half a year ago and we started dating. I am several years older and we live in different cities. Our family and friends think it is impossible for us to stay together. We pray and clearly know that God has made us to be matched. She fully relies on God praying about everything, and has had significant influence on me. We read the Bible, pray and praise together, and open our hearts to each other. Our mutual watchfulness has helped us build a better relationship with the Lord. We strictly follow the Lord's teachings to love each other and we attend church counseling. We pray for God's guidance to make our marriage a beautiful testimony to His faithfulness."

(Brother Du)

- ⌘ Thank God for His guidance in leading these two young individuals to steadfastly follow His will. May the Lord continue to strengthen this relationship, uphold their faith while preparing for marriage.

## Renewal Fee Trap

Subscription-based models have become a prevalent revenue strategy for many internet products. However, some merchant apps withhold and provide false information to trap consumers. A user subscribed to a 24-hour trial membership of an app. Within less than 24 hours, the app automatically charged the user for a monthly fee without notification. The user only realized it after seven months, and asked for a refund which was denied by the company. A lawsuit was started. The court ruled that the app interface had failed to fulfill the legal obligation of "a prominent reminder" to the consumer and infringed on the user's right to be informed. The company was ordered to refund the user.

("People's Daily", August 7, 2025)

- ⌘ Pray that the departments concerned can strengthen the monitoring of internet products, penalize the companies that fail to provide mandatory reminders of purchase terms and renewal fees to consumers, and even remove the apps from the market to rectify business irregularities and protect consumers.

Monday

## God is Our Protector

"My son and daughter-in-law who work in another city have left their four-year-old child with me. I teach the child to sing hymns, sowing the seeds of the Gospel in his young heart. One day, while the child was playing by the roadside in the village, I saw a car speeding towards him. I quickly shouted for him to get out of the way, but it was too late. The car hit the child who was thrown away. I was terrified and cried out to Jesus. The villagers rushed over and picked up the child. He was taken to the hospital for examination and found completely unharmed. The neighbors said my Lord had saved the child. I cannot thank God enough. Many of the neighbors have come to believe in Jesus after this incident."

(Sister Chai)

- ⌘ Thank God for protecting the child and letting sister Chai's neighbors see His mighty power. The wonders of God are beyond human comprehension. He saves people under all circumstances.

## Fire Hydrant "Sign Off"

Fire hydrants currently being used as "sign-off" points for courier packages has sparked widespread concern. A journalist discovered that fire hydrants in a building of a residential complex in Beijing had been used as "express lockers" and broadly stuck with packets. The messy situation is caused as some courier companies allow users to choose fire hydrants as collection points. Using fire hydrants to "sign-off" packages not only exposes a disregard for life safety but also violates the law. According to the Fire Protection Law, it is illegal to encircle or block fire hydrants. Property management companies are responsible for educating residents to properly recognize the safety functions of fire hydrants.

("Beijing Youth Daily", August 11, 2025)

- ⌘ May government departments can prohibit recipients from choosing public places for receiving parcels, and urge property management companies to properly maintain fire safety facilities. May the Lord increase residents' safety awareness, so that they do not compromise safety for convenience.

Tuesday

## Hardship Takes a Turn

"My mother had been frequently abused by my father when she was young. I had been suffering in pain and diagnosed with schizophrenia. My younger sister was the first to believe in the Lord, and shared the gospel with my mother and me. Jesus saved me. I was introduced to a church sister who loved God very much and did not despise me. We grew together and got married. She has devoted herself to caring for me and maintained our marriage according to biblical teachings. My long-term medication made it difficult for my wife to get pregnant. She prayed to God in tears. God blessed us with a very healthy and lovely child when my wife was 40. God has truly watched over our lives."

(Brother Fang)

- ⌘ God has transformed brother Fang's life with His blessings and immense grace. May God continue to build and shepherd this family, showing others what a marriage looks like in Him.

## Background Checks

Employers have the right to know about the basic information of their employees directly related to labor contracts. Many job applicants are rated risky ("yellow light") after background checks, resulting in not being hired or having their salaries reduced. Ms. Luo had been collectively sued by a property management company and therefore failed to get a job. Mr. Zhang who had been the plaintiff of a fraud case also failed to get employed. Mr. Wang had his monthly salary reduced by RMB 5,000 due to a negative comment from former colleague. Experts state that background checks should ensure standardized processes, compliant channels, minimal intrusion of privacy. Abusive use of background checks should be held legally liable.

("Workers' Daily", August 14, 2025)

- ⌘ Pray that the relevant departments will review the operational model of background investigation companies and restrict company activities such as extracting and disclosing unnecessary personal privacy to protect the rights of job seekers.

Wednesday

## Light of Liangyou

"I came to know Jesus and build my faith through Radio Liangyou. Deeply grateful for the companionship of Radio Liangyou, I have not given up even facing all types of problems when serving God. Your programs provide comprehensive knowledge and are accessible and clear to learners, they always bring me strength and light. Liangyou is truly a wonderful ministry used by God. Moreover, the broadcast programs supplement the teachings of mainland pastors, especially during the earlier years of isolation. The programs have nurtured the spiritual lives of many believers, including myself. May God abundantly bless and use Radio Liangyou."

(Sister Yang)

- ⌘ Thank God for using Radio Liangyou wonderfully. The radio waves of the Truth traverse mountains and rivers, becoming a spring of living water for countless thirsty souls. May Sister Yang influence more people with her life and keep being cultivated by God.

## 3C Labels

Power banks without a 3C certification mark have been prohibited from being brought on domestic flights. However, some merchants take advantage by selling "3C labels" to provide "fake certification mark". Authorities took action by meeting with online platforms who consequently removed all "3C labels" from the market, some merchants are still covertly selling the labels. Some online platforms, driven by profit motives, may relax their review standards or even turn a blind eye to the illegal activities. Consumers who purchase "3C labels" and add to non-compliant products and bring them on flights are responsible for compensation claims and criminally liable when an accident happens.

("Chengdu Economic Daily", August 7, 2025)

- ⌘ Lord, please let the public know the dangers of non-compliant power banks and stop the counterfeit practices. May the relevant departments step up prosecution targeting merchants selling "3C labels" and enhance the training of airport security personnel to improve their ability to identify 3C products.
